CAREER OBJECTIVE

Motivated Electronics and Communication Engineering student seeking a Web Developer role to apply expertise in HTML, CSS, JavaScript, and Python. Committed to building responsive, user-friendly web applications and contributing meaningful solutions within a professional IT environment while continuously expanding technical capabilities.

EDUCATION

B.E. – Electronics and Communication Engineering **CGPA: 7.86 / 10**

Infant Jesus College of Engineering, Thoothukudi | 2022 – 2026

TECHNICAL SKILLS

Frontend: HTML5, CSS3, Bootstrap 5, Responsive Design
Programming: JavaScript (ES6+), Python
Concepts: DOM Manipulation, API Integration, Form Validation, CRUD Operations
Tools: Git, VS Code, MS Excel

PROJECTS

E-Commerce Website *HTML · CSS · JavaScript*

- Designed and implemented a responsive e-commerce interface featuring product listings, add-to-cart functionality, and dynamic UI updates.
- Applied Bootstrap grid layout and CSS Flexbox to ensure consistent cross-device responsiveness and clean visual structure.

To-Do Application *HTML · CSS · JavaScript*

- Engineered a task management app with add, delete, and mark-as-complete features using JavaScript DOM manipulation and event handling.
- Implemented local Storage for client-side data persistence, maintaining task state across browser sessions without a backend.

Weather Application *JavaScript · REST API*

- Integrated a third-party REST API to fetch and render live weather data — temperature, humidity, and conditions — based on user city queries.
- Designed a clean, responsive UI with structured error handling for empty inputs and failed API requests.

Melanoma Skin Cancer Detection *MATLAB · Image Processing*

- Constructed an image processing pipeline using Python to detect and classify melanoma from skin images using pattern recognition techniques.
- Applied image analysis concepts to improve classification accuracy and demonstrated integration of AI principles with medical imaging data.

INTERNSHIP & EXPERIENCE

Web Development Intern – Hysas Technology *Ongoing*

- Developed and improved UI components using HTML, CSS, and JavaScript.
- Worked on responsive design and front-end enhancements.
- Gaining hands-on experience in debugging, version control, and real-world development workflows.

Intern - AMC Airport Systems *Completed*

- Assisted in system maintenance and monitoring, and ensure system reliability.
- Supported troubleshooting and technical operations. Gained exposure to real time system environments and teamwork.
